

The State Committee of the Republic of Uzbekistan on Defense Industry

THE STATE ENTERPRISE "CHIRCHIK AIRCRAFT REPAIR PLANT"

Chirchik Aircraft Repair Plant was founded in May 1944. In the past the main function of the plant was to conduct overhaul and maintenance of aircrafts. During this period more than 2,400 types and modifications of different aircrafts have been repaired.

The enterprise has a government license to manufacture, repair, deliver services and dispose of military and dual-use aircrafts and its equipment.
