AND QUALITY**

BULLETPROOF VESTS

I-IV PROTECTION LEVELS

GAS MASKS

VPU-1 model GAS MASK

VPU-1 model gas mask provides high protection of respiratory system, eyes, face and head of personnel from exposure to toxic substances, radioactive dust, biological aerosols, toxic chemicals, vapors, gases and tear gas (irritating) substances.

The gas mask consists of mask and filter. In addition, the filtering gas mask set includes a bag and non-fogging films, and, depending on the type of gas mask, may include intercom membranes, a hydrophobic knitted cover, plated warm-keeping cuffs, a waterproof bag and a device for receiving water and liquid food.
